

HAGOFIX®

Slat support system

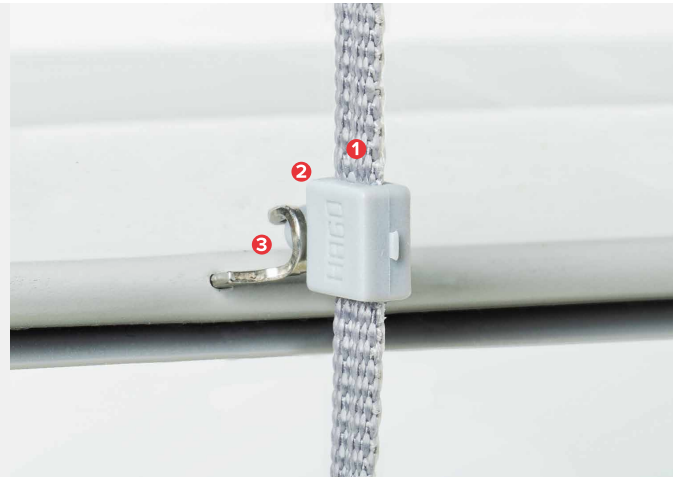

the innovative, versatile slat support technology for perfectly closing aluminium Venetian blinds.

HAGOFIX®

The slat support system perfects modern blind technology!

YOUR ADVANTAGES

- Perfect closure
- Precise folding
- Minimal pack height
- Exact pitch
- Lowest shrinkage
- Minimal elongation
- Weatherproof
- Efficient assembly

Three independent components

1. Support tape

Woven polyester support tape with double aramid reinforcement.

2. Connecting element

Ball cams made of UV-resistant synthetics.

3. Connecting counterpart

Connecting hook on the slat side made of stainless steel.

Pitch distances

The dimensionally accurate pitch distances are formed in the injection mould and are precisely maintained

Rational assembly methods

Can be expanded from manual to semi-automatic to fully automatic blind production. Appropriate systems are on the market.

HAGOFIX® – makes the good blind better!

HAGOFIX® – Slat support system for perfect slat closure and minimal pack height

1. Thanks to Hagofix® perfect slat closure
2. Flawless appearance and minimal pack height
